TRADE — We do offer trade prices and accounts for industry trade, interior and media so please do enquire to info@keepstore.co

CARE INSTRUCTIONS — When treated with the same care with which it was made, and by following this simple care guide, your KEEPRESIN piece may last you a lifetime. KEEPRESIN homewares are suitable for cold food presentation only. These products should be hand washed in warm water. If resin appears ‘frosted’ after washing, it should be rubbed with a drop of cooking oil to restore sheen.

All resin items are strong and durable but should be treated like ceramic as they can break if dropped or knocked against a hard surface. Resin is not fire resistant and so should not be used in an oven, a microwave, or as an ashtray. It should also not be placed in the dishwasher.

Whilst KEEPRESIN work hard to ensure price parity across all platforms, they do reserve the right to go on sale at any time via their own channels.
